PROFESSIONALLY SKILLED, CERTIFIED AND DEDICATED SUPPORT TEAM FOR ALL VERTICAL
LEADER IN IMPLEMENTATION OF HYPER CONVERGED INFRASTRUCTURE [HCI]
PARTNER FOR CISCO DATA CENTER IN SOUTH INDIA.

DESKTOP

A desktop computer is a personal computer designed for regular use at a single location on or near a desk due to its size and power requirements.

LAPTOP

A laptop, laptop computer, or notebook computer is a small, portable personal computer (PC) with a screen and alphanumeric keyboard. These typically have a "clamshell" form factor, typically having the screen mounted on the inside of the upper lid and the keyboard on the inside of the lower lid,
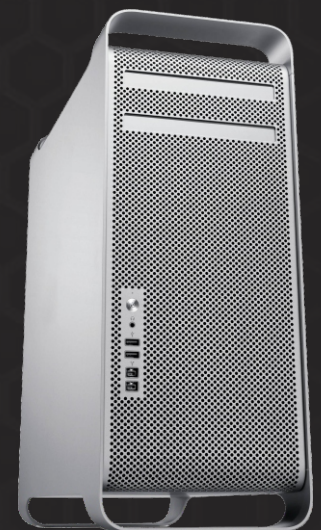

THIN CLIENT

In computer networking, a thin client is a simple (low-performance) computer that has been optimized for establishing a remote connection with a server based computing environment. The server does most of the work, which can include launching software programs, performing calculations, and storing data.
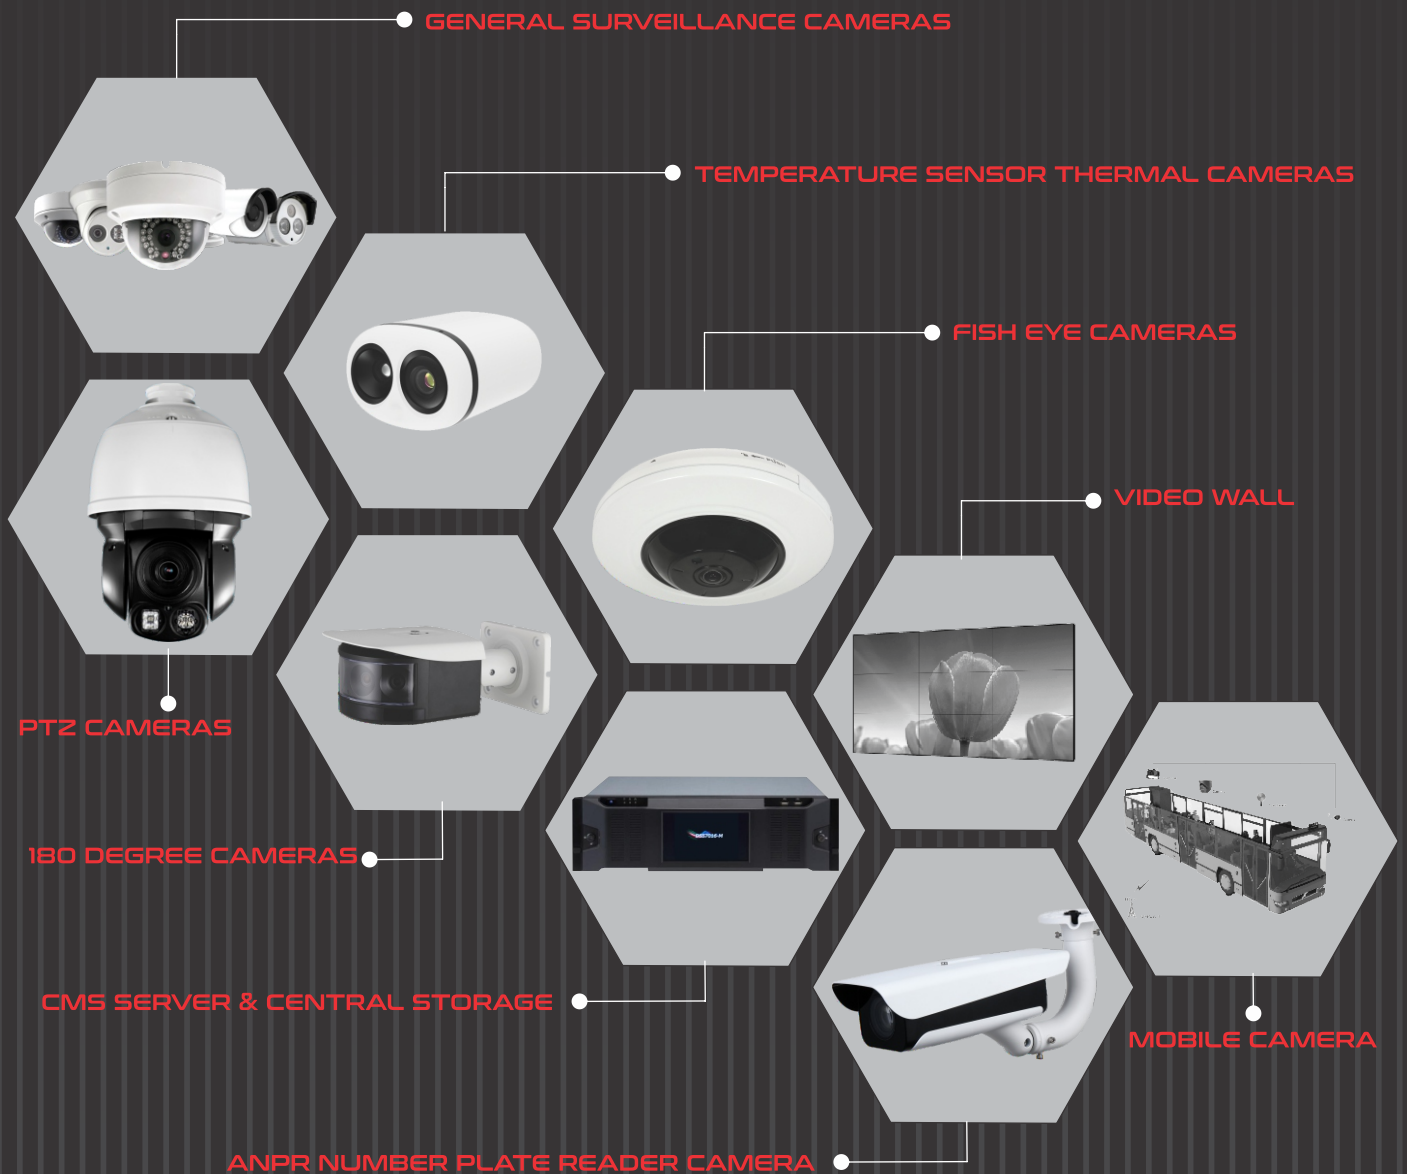

WORKSTATION

Workstations are advanced class of personal computers designed for a user and more powerful than a regular PC but less powerful than a server in regular computing.

MOBILE CAMERA

ANPR NUMBER PLATE READER CAMERA

AXIS TECH

TURNSTILE & BOOM BARRIER

- Single or Bi-directional function
- Automatic reset of barrier arms after each passage

  Boom Barrier
- Automatic reset of barrier arms after each passage

- Can control by three position switch or by remote control unit, operate'OPEN','CLOSE' and 'STOP'

TIME AND ATTENDANCE

- Mark Attendance Using Multiple Credentials
- Standalone & PC based Biometric System
- Finger, Face, Palm, Vein Readers With Thermal Sensors
- Auto Data Push from Device to Server

BIOMETRIC PRODUCTS

TEMPERATURE DETECTION SYSTEM

- Mark Attendance Using Multiple Credentials Standalone & PC based Biometric System Finger, Face, Palm, Vein Readers With Thermal Sensors

- Auto Data Push from Device to Server

CAFETERIA MANAGEMENT

- Food Planning
- Customizable Menu
- Integration with Printer
- Informative Reports
- Cash less Transactions

ACCESS CONTROL SYSTEMS

- Door Access Control on : User, Zone and Time
- Occupancy Control
- Man-Trap
- Centralized Monitoring and Control
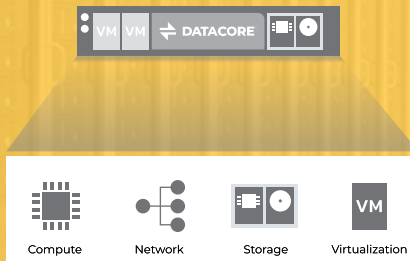

DATA CENTER
SOLUTIONS

AXIS TECH

DATA CENTER BUILD

We build Data Center Solution for Large Corporates
Scale service delivery and simplify requirements for data center setup, management, power, cooling, and cabling.

COMPUTE AND STORAGE

Applications like ERP, CRM, E-commerce and other businesses need a scalable server and storage solutions. Based upon the enterprise, servers have consolidated storage designed to expand as demand increases. The server management solution improves end-user productivity with innovative system management solutions. Axis Tech ffers a full range of Enterprise Server solutions based on business need. With focus on security, it delivers servers with high performance for any kind of environment.

CONVERGED AND HYPER CONVERGED

Simplify and speed infrastructure deployment with our integrated and hyper converged systems.

Compute   Network   Storage   Virtualization

DATA CENTRE NETWORKING

Axis Tech is one of the biggest service providers for a range of networking switches. Primarily used for interconnecting devices, switches forward data packets to the device that it is supposed to send data.Depending on the need, we provide switches for different use cases and scenarios

STRUCTURED CABLING

The first and foremost need for every organization irrespective of the industry or size is Network. Networks are the means of communication that enables us to have accessibility to any point across the globe. To put it directly, the internet is a vast bunch of computers connected to one another. Since the network is the backbone for communication, Axis Tech as a pioneer in the field of networking has been able to levitate the burden of Network Infrastructure architecture and deployment from the clients

CYBER SECURITY

UTM FIREWALL

ANTI VIRUS

DATA LEAKAGE PREVENTION

MOBILE SECURITY MDM

EMAIL VIRUS THREAT

RISK AUDIT

AXIS TECH

Our expert team with an experience of having worked extensively in several cybersecurity projects will bring the right insights to architect your cyber security framework.

AXIS TECH

SMART CLASSROOM

Smart Class LMS having digital smart board is designed to deliver teacher led subjects.
It includes two way interactive learning environments between student and teacher.

This digital class room has become the most effectively

IDEATE

Brainstorm and ideate on an infinite interactive whiteboard that allows teams to collaborate and present their ideas through an array of smart tools and online content resources.

- SMART TOOLS
- MYCLOUD - BUILT-IN SEARCH ENGINE
- EASY SHARING
- VIDEO CONFERENCING
- CONSUMABLE (BATTERY) FREE STYLUS
- GEOMETRICAL TOOLS
- SNAPSHOT FROM RUNNING VIDEO

AXIS TECH

CONNECTIVITY

RF TOWER
Long Range Connectivity
Point To Point
Point To Multi Point

CAMPUS WIFI
Indoor Wifi
Outdoor Wifi
Controller Based

SD WAN
Upgrade your WAN to the next
level of performance

MPLS
Multi Protocol Label Switching
High Performance & Reliable Connectivity
Secure, Flexible, Scalable Network
Data Prioritization with QoS/CoS

RFID Solutions
Trusted solutions are rendered for
all the RFID application such as :
Asset & Inventory Tracking Solutions
Warehouse Management Solutions

IOT
The IoT is really a collaborative tool
that helps innovators in every industry
create better ways of living and
working.

IP TELEPHONY
Voice over Internet Protocol,
also called IP telephony, is a method and
group of technologies for the delivery
of voice communications and multimedia
sessions over Internet Protocol networks,

PBX TELEPHONY
PBX Telecom solutions bring you
Unified Communications that can
manage communication on
multiple devices located at
multiple locations.

GPS TRACK SYSTEM AND FUEL SENSOR
The IoT is really a collaborative tool
that helps innovators in every industry
create better ways of living and
working.
